LIGHTING

# Innovative lighting solutions for every need

- **Noreen** is a leading company providing energy efficient lighting solutions for sustainable development of communities, municipalities and industries. Our principle is to provide successive generations of intelligent lighting that ensure fortuitous living and working conditions for all our clients.
- We provide a comprehensive range of light sources, including:
  - Interior Lighting
  - Outdoor & Landscape Lighting
  - Industrial Lighting & Explosion proof
  - Lighting Controls
- Our world-class team of lighting experts, along with our global designing centres, supply chain solutions and network of specialized partners ensure the highest quality solid-state lighting solutions for our clients.

# Interior Lighting

- **Lighting** is one of the most important aspects of the interiors because, as well as illuminating a room, it can completely transform the look of a space for better or for worse.
- There are **three** basic **types of lighting** that work together to **light** interior space: General, Task and Accent.
- A good **lighting** plan combines all **three types** if needed to **light** rooms, according to function and style.
- Homes, Hotels, Hospitals, offices, commercial buildings, parking
- Noreen provides building total solutions and many products for all types of lights:
  - 🌀 Down light
  - 🌀 Spot light
  - 🌀 Pendant light
  - 🌀 Panel light
  - 🌀 Decorative light
  - 🌀 Strip & Linear light

# Outdoor & Landscape Lighting

- **Landscape lighting** or garden **lighting** refers to the use of **outdoor** illumination of private gardens and public landscapes; for the enhancement and purposes of safety, night time aesthetics, accessibility, security, recreation and sports, and social and event uses
- **Noreen** provides many products for all types of outdoor lights:
  - Flood light
  - High-bay light
  - Wall Washer light
  - Decorative light
  - Linear light
  - In ground light
  - Pool & Underwater Light
  - Façade light

# Explosion-proof Lights

- Explosion Proof lights, also known as Hazard Location Lighting are UL certified and compliant with OSHA Safety Standards. This makes them safe for use in areas where flammable vapours and/or pulverized dust exist or have the potential to exist. Suggested industries include petro-chemical, shipyards, aviation, and railcar maintenance and manufacturing. Common applications include corrosion control and blast and paint.
- We offer LED, incandescent, and fluorescent portable explosion proof work light.
- **Norren** can offer customized fabrication for businesses with special and complex lighting and power distribution requirements.

# Lighting Control

- Lighting control system is an intelligent networked system of devices related to lighting control. These devices may include relays, occupancy sensors, photocells, light control switches or touchscreens, and signals from other building systems (such as fire alarm or HVAC). Adjustment of the system occurs both at device locations and at central computer locations via software programs or other interface devices.

## Advantages

- The major advantage of a lighting control systems over stand-alone lighting controls or conventional manual switching is the ability to control individual lights or groups of lights from a single user interface device. This ability to control multiple light sources from a user device allows complex lighting scenes to be created. A major benefit of lighting control systems is reduced energy consumption. longer lamp life is also gained when dimming and switching off lights when not in use.

# Guest Room Management GRMS

- Noreen provides the key to hospitality brands in the hotel and cruise line industry to efficiently and centrally manage guestroom energy consumption and services at the room, property or portfolio level – driving their environmental sustainability initiatives while providing a better guest experience.
- **Eelectron** is an Italian company that produces **KNX** standard electronic hardware and software devices. Our range of products is aimed towards **hotel automation**, **home evolution** and **building automation**.

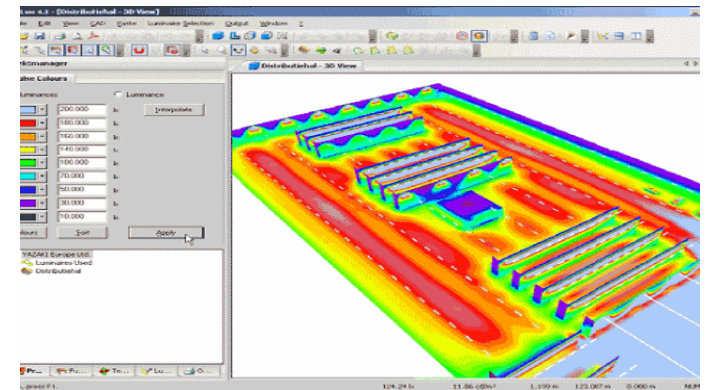

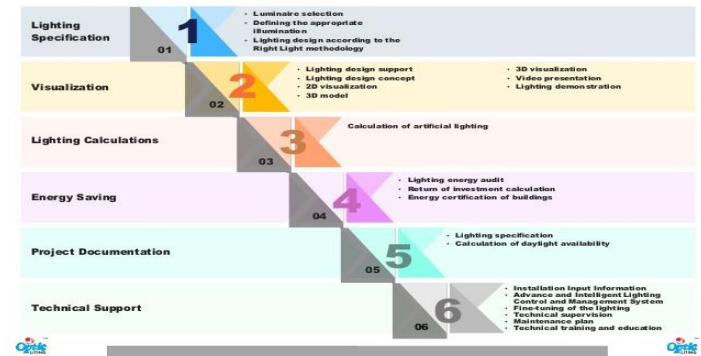

# Lighting Design Services

- **Noreen** experienced team of lighting designers use the latest lighting calculation and design software to provide you with a comprehensive and complete lighting design proposal. Whilst adhering to agreed application guidelines, reports and site layouts.
- **We** create dynamic and intelligent lighting designs that maximise a product's impact and efficiency.

Services you can expect:

- technical advice;
- lux calculations;
- 3D visualisations;
- complete lighting design proposal;
- cost and payback calculation.

# Our Projects
